ChiPrints is an open access repository of the University of Chichester’s research

Benefits

- Enable your work to be submitted for the next REF
- Automatically update your staff profile webpage when new research is added
- Improve the online global presence of your research
- Increase the chance of your work being read and cited by others
- Conform with research funder open access mandates
- Search and browse features

Get started

Go to [http://eprints.chi.ac.uk/](http://eprints.chi.ac.uk/) or link from the Library Services Moodle

Login using your University username and password and choose “Manage deposits” from the left hand side

From the “Import from” menu, choose DOI (via CrossRef) and click on “Import”. (Do not choose “New Item”)

Add DOI to the box in the format DOI:10.1080/02640414.2016.1156728 and click on “Import Items”

TIP: Check SHERPA/RoMEO [http://www.sherpa.ac.uk/romeo/](http://www.sherpa.ac.uk/romeo/) for your journal publisher’s copyright allowances with regard to open access.

If you are unsure whether the publisher allows your item to be included in the repository, library staff will check all deposits’ copyright status before making them live.
Go to the upload screen and add a pdf of the post-refereeing version of your article, before the publisher added their logos and formatting (if possible)

Choose content type and license
Click on UPDATE METADATA, then click Next.

Check the bibliographic details and add the Division and date the item was accepted for publication

Click Next, choose Subject(s) from list, then Deposit followed by Deposit Item Now to be reviewed by library staff (you can no longer edit). You will receive an email once the item is live.
