**Correction to: European Journal of Applied Physiology**  
<https://doi.org/10.1007/s00421-019-04226-2>

The authors would like to correct the following errors in the online publication of the article. Incorrect values for % changes for climb duration were provided in the abstract, results and discussion session. The % changes in climb duration was 15% with intake of New Zealand blackcurrant extract and – 15% for the placebo condition. This correction does not change the conclusions derived from the study.
